## **DIMSPORT SOLUTIONS FOR THIS VEHICLE**

### **RAPID BIKE EVO**

It puts in your hands total control of fueling operations as it is directly connected to all stock injectors (up to eight) while managing at the same time the corresponding air/fuel ratio. In this way the carburetion values can be modified throughout the entire engine power delivery curve.

### **RAPID BIKE RACING**

It represents the highest level of technology available for reaching top performance, offering the widest range of solutions for demanding professional track riders and street users.

### **RAPID BIKE SMART2**

Specifically designed to improve the performance of the newest motorcycle models equipped with highly sophisticated lambda sensors complying with the latest European homologation criteria.

### **YOUTUNE**

A compact and innovative calibration device allowing to customize your bike's performance in real time, whether you are on the street or on a race track.

### **SHIFT ASSIST**

Performing up-shift as well as down-shift operations

## **MY TUNING BIKE**

Performing a real-time injection auto-remapping
